Silver	Discussion on cutting down meetings. 2 meetings 1 @ 0800hrs & 1 @ 1600hrs		
Media	Yesterday afternoon there was media silence. This am at 0710hrs we had a media meeting for a live radio show. They say they're getting lots of media questions on the way.		
GD	CP10 @ 0630hrs 27 Tractor trailer commercial vehicles, 9 farm tractors, 59 RV's 160 passenger vehicles. (numbers last night appeared to be incorrect) Crowd mood was good, and they shut right down, no movement at all. 4 tickets for speeding north of 10 by Sheriffs. 2230hrs CBSA let a couple trucks through but they were told to go back by protesters at site. 0030hrs: 1 site truck went south to Utah, information was taken. LP for tractor: Personal trailer: Personal Driver Personal . Truck was not searched, unknown if he was headed to meet other protesters in the USA. Worked out resourcing for Delbonita. Will be working with IBET regarding that protest. 31 mbrs coming in tonight. KK: We want to keep our numbers high coming into the weekend.		
IBET	Aprx 2015 hrs .2 vehicles went across into the USA on border rd. Grey or silver matrix and an F150. Arrived from east and then went south. Were out of site for 10 min. We blocked the area and stopped them on the way back given charges. BP showed up and did joint investigation. s.38 s.38 Where they did the T stop it was s.38 ss.38 ss.38 No Intel yet. Nothing of significance found in the vehicle. May look at charging for not coming through a proper border crossing.	TASK	

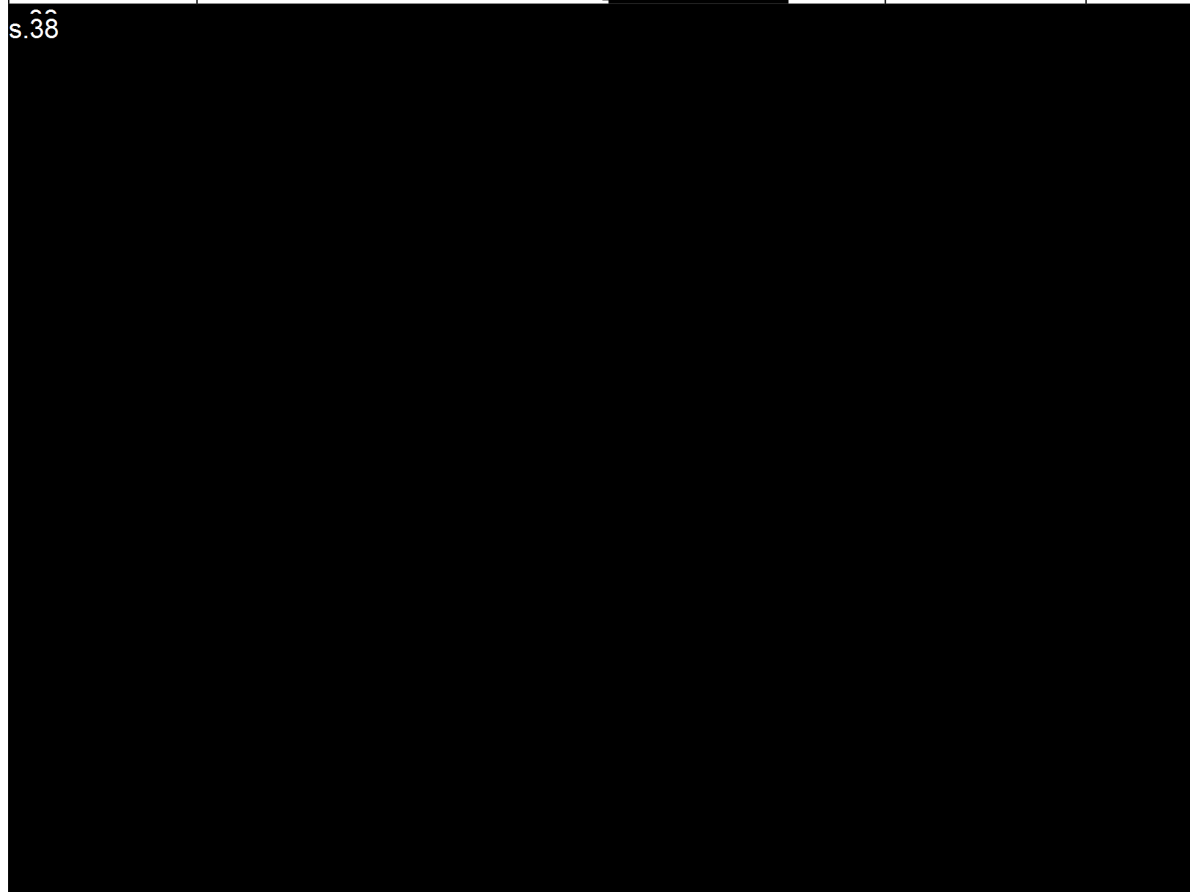

Speaker:	Notes:	Follow Up:	Time:
	Working on mapping routes that Nisku convoy can get down here. There is 3 routes they can take. 2 have bridges that we can block off without too many resources. IBET to look at Egress routes with CBP. Site: SB 17 commercial, 2 passenger. NB 27 commercial, 1 passenger, 2 tractors Smugglers & centre blockade : 3 commercial, 22 passenger, 16 tractors across highway ditch to ditch, 13 RV's, CP5: 34 personal vehicles, 6 RV's.		
Silver	If we have another situation where a trailer is abandoned I'd like to have a better look at that for a risk perspective. When we get trucks and trailers pulling up in case they just drop it off we can do some checks.	Decision	
CCMG	Yesterday afternoon when tractor blockade switched around. Headed to smugglers to talk to Person. He gave some nonsense and not knowing what happened and needing to look at it. We didn't end up surveilling the whole line. We stopped walking and just talking and we got surrounded by lots of ppl wanting to talk. During that there was implication that it was moved because someone from the RCMP because we had reached out to Kenworth etc. to get keys cut to access vehicles to move them. That was response. Flex to strengthen their position. Unhappy about having to lug gear through CP5 by hand. We pushed the message about having emergency access was always part of the deal but this became sticking point. They said we still have access but inconvenient. Disengagement point then was that we will try to figure something out and get back. We checked out CP5 to see what might work and ran into Person. We talked about having their truck with supplies coming up to the CP and then meeting another truck so no one is walking. Plan was to go back to Perso, because we'd had that chance meeting with Person, we decided to go around Person and go straight to Person. We went into bar and engaged with some people. One guy inside was social media creating their story. Putting up pictures. Spoke to a few ppl then went out to speak with Person. Initially things looked good for moving		

Speaker:	Notes:	Follow Up:	Time:
	supplies across so we could get our hole in the line. Person appeared out of no where and was not ok with that because no one ran it by him. He said no we're not doing that. His demand is that his vehicles are able to come straight down Hwy 4 with supplies as needed. He's allowed for X vehicle, to be allowed to come through CP10 given a certain amount of time to get down and then unload monitored by him. Stated we would deal with in morning. Wanted promise of letting us know of threats that are coming in. He seemed ok with that if there was outliers making threats. He brought up that his family had been threaten much like tow trucks being threatened. Being dealt with by Ft McLeod RCMP. We were very concerned. Intentional poke when we spoke to Person to see what would happen, see what kind of pressure we could build between the 2. Person shut it down.		
KK	Might be wise to scout out egress routes. Have discussions with CBP for where we can have some emergency access through fields etc, if we have to cross the border. IBET & CBP to work to make map.	TASK-IBET / CBP	
CCMG	2 Story building to the south is occupied by them keeping eyes from the top floor, Flags in windows, there is camera's at CP10. Just as we were leaving we were asked to watch for a black truck with a duffle bag full of guns. Believe it was stopped at CP5 2030hrs. Would like to know if it was stopped. IBET has cp5 will look into that. Farmer in Lethbridge mentioned this morning See you tomorrow, we're brining about 1000 horses. Invited to a meeting in Milk River with Mayors.	Threat	
Stakeholders team	Meeting is with Person group that say they're no longer wanting to be a part of this and want to help us out.		
CCMG	Will not attend meeting to keep neutral		
Sheriffs	McGillivray & Sheriffs will push man power to Delbonita. Would like commercial vehicles to set up a checkpoint along the route to get here but we might be short.		
KK	Make sure we're being friendly just letting them know that its packed down there, they'll have		

Speaker:	Notes:	Follow Up:	Time:
	trouble getting down there. There is a ticket for not listening to a police officer that we can use if people are not listening on where to park etc. Got an impaired out of parking lot of hotel while we were patrolling.		
CBSA	Working on BCP which would result in temp closure of port. Waiting to hear back on that. s.37 s.37 s.37 Numbers from Delbonita. 917% increase in volumes for the last 7 days. 163 commercial & 173 passenger went through yesterday.

CBSA	Sask Trucking Board member heard trucks from Coutts are planning to make it to Portal by Sunday not confirmed		1230
	Brief with CCMG & SET Team		1231
CCMG	Last night we left to percolate that we want lanes open. This was their way of negotiating because they knew we would have to go to them. The tractor		

Speaker:	Notes:	Follow Up:	Time:
	blocking east west has been moving slightly to allow bigger vehicles through. There are now 4 trucks stuck at the blockade.		
KK	Border has not closed yet so we can't stop them.		
CCMG	Things have changed. Usually we are engaged as soon as we arrived, this time we waited for a while, Person was on the phone. They want truck to have access to bring supplies, we told them we wanted to know what was coming in. His solution was to have us watch the truck being loaded in Milk River and have the same truck everyday.		
	CCMG mentioned that it seemed different today and it feels more military. He acknowledged. He said I can't tell you everything but that there is somebody in charge.		
	If we take Person out it's hard to lose the connection but he's probably playing us more that we are. We likely won't lose much taking him. Currently we can freely walk in the bar. If we do that then they may keep us out too. No real good in anymore with him. Feels like it's changed.		
McCoshen - Negotiator	Something that came up with psychologist today. If Person was taken away could Person step up and would he take over.		
CCMG	How does Person know who's here and what's coming and going. He said as far as I know there's no guns here. CCMG said you're in charge of this you need to know. I've got 30 ppl in my camp that will take care of things if anything happens.		
	Discussion on if Person has the same influence as Person Info		
CCMG	Engaged with another guy we had contact with originally. Will see if he can step up and be more engaged.		
McCoshen	Discussion on Ottawa protests. Sent out rights as protester, this is the laws you are breaking and here are some of the potential implications of charges. If you were to be arrested, how would you act or react. This is planting the seed on what could happen. It might make them think twice. Some may stay, some may go. Loss of livelihood, and not being able to get a job is a consequence.		

Speaker:	Notes:	Follow Up:	Time:
CCMG	Believe that will be very successful at CP10. Site does not seem to care during discussions with us.		
McCoshen	If we can get internal conflict going it might help us		
	If we can charge & fine a corporation maybe that could go into our pamphlet.		
CCMG	Like that better going to the bosses instead of Personal Info.		
	Shift around the farming community as they are losing lots of money.
